

BOATING IN BOSTON

BoatingInBoston.com / (617)299-3392

What do I need to do to rent/use a boat?

1. Fill out our agreement (on the other side of this paper)
2. Check in with the staff
3. Put on a lifejacket and listen to the staff safety talk
4. Have fun!
5. Check out and pay when you are done

What should I bring?

- Leave all personal items in a secure place, such as cell phones, car keys
- Wear a hat, sunglasses and sunblock to avoid sunburn
- Always wear your shoes
- Bring water to stay hydrated
- Be prepared to get wet, you are in a boat!

Safety Guidelines

It's important to realize that the main factor in your safe boating experience is YOU. Your safety is your responsibility at all times.

Show Respect

- Respect all markers, boundaries, signals and rules of the road
- Respect each other, the environment and the equipment
- Respect the knowledge and experience of the Boston Outdoor Recreation, Inc. staff and crew

Be Responsible

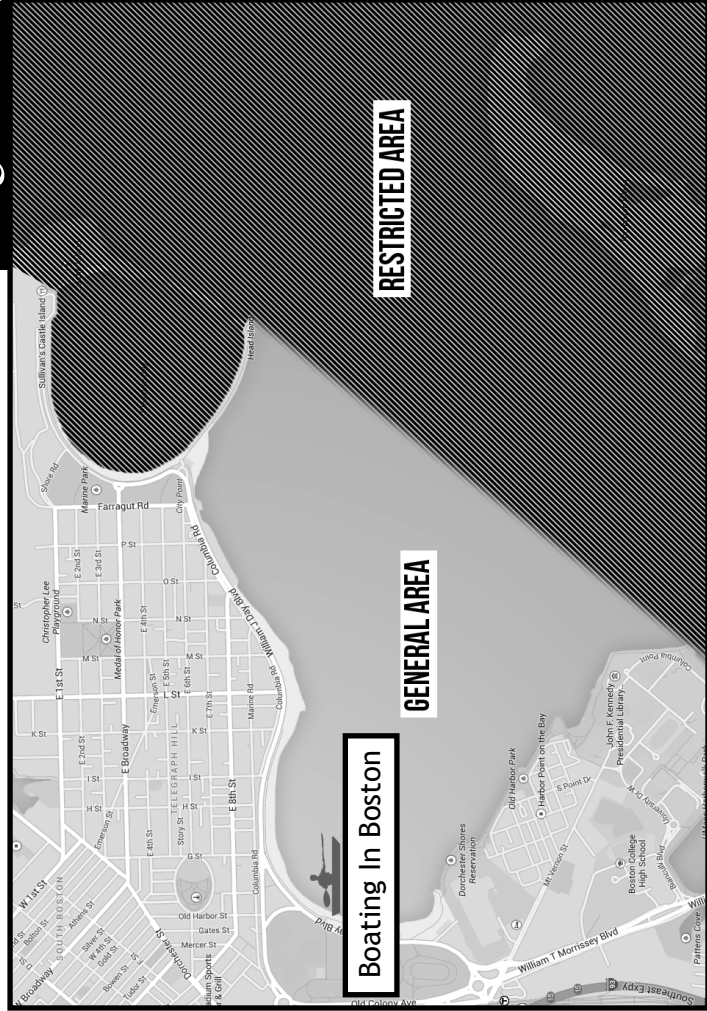

- Always wear your lifejacket, and keep it snug
- No alcohol and drugs; be a responsible boater
- Know the waters before you go. Watch the weather and your map!

Be Responsive

- Stay alert and visible, and be ready to move away from hazards
- If you flip your boat over, it's ok. Stay calm and hold on to your boat
- If you hear 3 blasts from a horn, return to the company docks

Turn this page over to sign our agreement!

Carson Beach Boundaries

Is there someone watching me all the time?

The short answer is no; however, if the staff can see you, they may provide assistance but they are under no obligation to do so. We operate just like a ski/bike shop where you are responsible for the equipment and your own safety.

Who has to sign our agreement?

Everyone who is over 18 must read and sign our agreement. Minors must be listed at the bottom of the signature page on the other side of this page.

What should I be aware of?

There are many things to be aware of in watersports and the outdoors. We cannot list them all here, but here are some common risks that you are responsible to be aware of:

- Weather conditions, such as rain and thunderstorms
- Changing tides, currents and obstacles that can be seen or unseen
- Collision, capsizing or other hazard which results in wetness, injury or exposure to the elements
